José Martinez de Hoz,
Ambrosio Demarchi,
Jorge Drabble,
Manuel S. de Zumaran.

MANAGER—Sr. D. FRANCISCO F. MORENO.
Inspector-General—Dr. Guillermo Schindler.

Co.'s Office, 118 Calle Piedad, altos.

The Company insures on equitable terms, and at a fixed premium, every description of property. The Company is solely and exclusively responsible for losses OCCASIONED BY FIRE which may be suffered by insured parties.

The Insurance may be effected for periods ranging from one month to ten years. The total premium is payable in advance, in cases where the Insurance is effected for a term of one year or less; and annually where the term exceeds one year. In terms of from 5 to 10 years, payment in advance of 5 years premium, entitles the Insured to the reimbursement of one year's premium: or in other words the Company will only charge the premium corresponding to four years.

Payment in advance of ten year's premium entitles the Insured to the reimbursement of two year's premium; with a further abatement of 10 p: cent: on the premium corresponding to the term of eight years: that is he will only be charged with the amount of eight year's premiums—less 10 p. cent.

The Company furnishes guarantees of the highest character, from the fact of there being no other Fire Insurance Company, at a fixed premium, having its head residence in the Argentine Republic, and also from the circumstance of its large capital.

The Company's funds are deposited in the Provincial Bank.

Further particulars will be furnished on application at the Company's Offices. 93 xp n15

The Company insures against loss or Damage by Fire Private Dwelling-Houses, Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:—

1st. Security.
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

Any further information can be obtained on application to

"THE QUEEN" FIRE AND LIFE INSURANCE COMPANY.

CAPITAL, £2,000,000.

INCOME, £160,000.

LIVERPOOL AND LONDON.

Insurances against loss or damage by fire may be effected with this Company on Dwelling Houses, Warehouses, Buildings, Merchandize and Goods in the Custom-house, Bonded Stores, and private ones, Produce in the Barracas or in Deposit Stores, in the Lighters or on Board; and on nearly every description of property.

Rates of premium vary according to the nature of the risks, and will be found as moderate as those of other first-class offices.

Losses by Explosion of Gas paid for. Loses by fire arising from lightning made good.

The advantages obtained by those who assure with the "Queen" are fully mentioned in the prospectuses. Life Policies are indisputable; advances to policy holders, &c. The "Queen" enoys to so great an extent the confidence and support of the public in England that the Post-master-General has selected it, for the insurance of the lives of the clerks and other officials.

The undersigned General Agent of the Queen Fire and Life Insurance Company is duly authorized by power of attorney to issue policies and to settle and pay losses in Buenos Ayres with promptitude and liberality, without reference to the chief office in England.

Official registration has been entered in the Registro Publico, in accordance with the existing laws of this Republic.

WEDNESDAY, JANUARY 8, 1868.

PRESIDENT MITRE AND THE WAR.

The untoward and deplorable event which has suddenly deprived the Argentine Republic of its highest magistrate by the lamented death of Don Maros Paz, and which has sensibly deepened the gloom hovering over this unhappy land, creates a situation which was never contemplated by the framers of the Constitution, and places the Government in a serious and awkward predicament, more particularly in view of the critical circumstances through which the country is passing. It may, however, while aggravating the actual crisis, be perhaps the means of culminating that very crisis, and of occasioning an unexpected solution to the sanguinary and complicated problem of the Paraguayan imbroglio.

Although no ardent partisans of the Paraguayan war, foreigners are far from joining in the senseless cry raised for party and personal purposes, that all the evils that afflict us are to be laid to its door. Their causes lie far deeper, and are to be traced to the want of energy and shortsightedness of those who for some time past have swayed the destinies of this country as much as to the antecedents and political regime of the country itself. But, while impartial observers will be ready to confess that if the war was in its origin a necessary evil for which the Argentine Government was not responsible, but which it could neither disregard nor shrink from with honor and dignity, they will as readily admit that subsequent events and its very duration have rendered it in the sequel an unmitigated nuisance, and the dictates of a sound and lofty policy do undoubtedly suggest the expediency of bringing it to an immediate termination. It is in compliance with these views that we have from time to time urged upon the belligerents the imperious necessity of making peace at any cost, and that we have hailed with sincere satisfactiou the appearance of anything that seemed to open a door to a pacific solution.

The friendly step taken by the United States Government of simultaneously offering its good offices to the various belligerents through its respective diplomatic agents, both from the character of the mediator and the circumstances under which the offer was made, raised just hopes that a settlement of the questions pending between the belligerents might be arrived at through diplomatic negotiations, but as yet those hopes have not been realized. The history of the correspondence that took place on that occasion between the American Legation and the Argentine Government must be fresh in the memory of our readers, and they will remember that Sr. Elizalde, the then Minister for Foreign Affairs, in his answer to the original offer of mediation made by General Asboth, said—"The Argentine Government is sincerely grateful for the friendly step taken by the Government of the United States, and, *should the occasion arise, it would be happy to avail itself of such benevolent dispositions.*"

Now, we emphatically say, that, taking for granted that the United States Government is as anxious as ever in the interest of humanity to lend its good offices to bring about a peaceful and honorable termination to this protracted Paraguayan war, the occasion mentioned by Sr. Elizalde has undoubtedly arrived, and ought not to be allowed to pass.

When the sad news of the demise of the Vice-President reaches General Mitre, as it must have done by this time, his first duty will be to delegate at once the command-in-chief to another general and come to Buenos Ayres, and, by once more assuming the reins of power, put an end to the acephalous condition of the National Government. His subsequent proceedings may naturally be affected by circumstances, but at present it would appear that he must choose between one of two courses—either allow the war to drift on, or resolve to make peace at any cost. If he decides for the first he may either summon Congress to an extraordinary session, or wait for the time of their regular meeting in May, and call upon it to appoint the person who is to fill up his place whilst he goes to resume the command-in-chief of the allied army. But if, impressed with the urgent necessities and the welfare of his country, and, disregarding the promptings of personal ambition, he manfully adopts the latter course, and seizes this golden opportunity to stop the ravages of the war, he will throw round the closing days of his term of office a halo which the most brilliant victory would be unable to impart.

IMPORTANT FROM SANTA FE.

RESTORATION OF THE AUTHORITIES.

FIGHT AT PAVON.

ENTRE RIANOS IN THE FIELD.

Rosario, January 5.

On the night of the 3rd Entre Riano troops commenced crossing over at San Lorenzo. Something ugly is up in that quarter. Two steamers sent up. Shots fired.

Paunero is expected here daily.

Cholera has broken out in Mendoza.

Mr. Oroño, disgusted with the exacting tone of the revolutionists, has reassumed the supreme power. A decree is to appear shortly. In doing this Oroño must, of course, feel himself powerful enough to put the rebels down. A party of loyal forces, near Pavon, attacked a party of Colonel Patricio's men, and sabred them handsomely.

It is expected that there will be soon sufficient forces to enable Oroño to take actual command of the province. The rebels were completely taken aback when they heard that Mr. Oroño had reassumed the Governorship. They boast, however, that they are strong enough to whip any force that may be brought against them, even should it be National. They, of course, depend upon Urquiza, who will, the moment things look unfavorable, leave them in the lurch. Strange, that a man who has sacrificed his dearest friends, and would sacrifice his own father to attain his ends, it is strange that such a man has still such a number of partisans.

THE WAR IN THE NORTH.

Itapiru, January 3, 1868.

Gentlemen,—

The day named when the grand movement towards the enemy's capital is to be made is fast approaching. Meanwhile, there is something quite ridiculous in the disparity of the means the allies are accumulating in comparison with those of the enemy. The thousands of well-equipped troops, the scientific armament, the expensive ironclads, the costly flotilla of armed steamers, as well as transports, a well supplied money chest, the droves of draught and sumpter cattle—all of which have to be fed with provender brought from Buenos Ayres,—the throngs of baggage-carts, the well provided hospitals, the long trains of artillery, the immense depots of war; like and commissarit stores. So great is the discrepancy, so unusual the vast and lavish preparations for any South American military enterprise, that, if these were days when fresh conquests were desirable, it might be justly suspected that the operations of this formidable force would not cease with the downfall of Lopez, but, that a new, and by no means insignificant addition, would be made to the Brazilian Empire. Nevertheless, all this imposing force, as well as 10,000 fresh troops, will be necessary, not only to fight, but to protect the over-extended line of communication, beset with all the obstacles that bad roads, a fierce semi-tropical heat, climatic diseases, impure water, and wily enemies can interpose—all combine to render a march upon Asuncion a hazardous undertaking, through regions apparently as little known to the allied chiefs as are the lunar Apennines. Ere they attain their object they will have to learn a lesson in the art of providing for an army, a science they seem to understand imperfectly. Besides these impediments to a march on Asuncion, in a military point of view, if we may be permitted to take upon ourselves to judge of the art of war on common sense principles, what is to be gained by the move? There are no troops, or none to speak of, to disable there; no male population is left in the country to raise a revolution against Lopez, or an Estigarribia to be bought. There is no Government sitting in the capital to dominate, or magazines to seize; nothing else better

"Than Highland scab and hunger,"

will be the result of the mighty expedition.

It is well known that the Grand Marshal has brought every available element within the walls of Humaita, where, as a matter of course, they are daily diminishing. It may be said the possession of Asuncion by the allies would cut off the enemy's supplies; however, these are not drawn from Asuncion, but over the whole country, and could easily be collected and driven by the new road in the Chaco in the rear of the invading column. What seems much more feasible is to send a body of troops to the Chaco to form a line from where the fleet is placed opposite Humaita to a point in the Chaco in front of Tayi, completing the circle, and at the same time having a double communication with the northernmost point of the besieging lines. The difficulties of this step are beyond our ken, but from our knowledge of the road to Asuncion by land at this season, they must be really great, if not more easily surmounted than those opposed to a march on the capital.

Here the cholera is upon the increase especially since the arrival of several boatloads of green water-melons, the sale of which is now prohibited; at the other encampments it has almost disappeared. There is intermittent fever, dysentery, small pox, lung complaints, and chucho, the latter terribly bad amongst officers and men; it is a disorder that comes on suddenly, and completely prostrates the patient in a few hours. The amount of quinine used is something fabulous. Three surgical officers of the Argentine forces have passed here, debilitated from the disease. The remaining medical corps have their hands full. It is the opinion of those well qualified to judge, that this and the other ailments are caused by the horrid water used in many parts of the camps, the eating of tired meat, and the suffocating heat. The Argentines are free from the small-pox. The soldiers are very well clothed with summer dresses, and had they better meat and water would be much more healthy.

Generally once, and many times oftener, during the day and night, the Brazilians beat to arms, in most cases caused by some small force of the enemy sallying out upon a foray, but on the slightest object showing itself outside of the trenches the Brazilian order is 'Fogo, fogo,' and "blazing away" commences. The prudent Paraguayans lose no time in ensconcing themselves beind their earthworks, when the compliment is returned; at times one or two at most "come wounded off or maimed." Amongst the Argentines no notice is taken of this. Such is the sum total of the war news. To all appearances, the allied army will, in six months time to come, with regard to military operations, be in 'statu quo,' severely decimated by sickness and the terrific heat.

Amongst the Argentines drilling is performed before sunrise, in fine, all work that can be done while the sun is below the horizon is completed then. In this respect the Brazilians are not so particular. At the encampments great attention is given to sanitary rules, all offal or garbage is immediately burnt or buried. It is here only the most abominable filth of every description is met with, in all places.

Deserters from the enemy occasionally pass over; they are not as formerly suffered to go at large, as they have, after being petted, been known to pass back. They invariably act the part of simple half-witted folks, when in fact they are as many long-headed rascals sent as secret spies. They have a singularity; all profess a profound ignorance of the Castillian language, nevertheless, I found one of the number shamming stupidity who spoke English fluently and correctly.

Until yesterday the river continued to rise rapidly, in a manner heretofore unknown—the islands, and strips of high ground whereon the proveedors and suttlers had established their stores are now all under water, where eight days ago the dust was raised in dense clouds by every breath of wind, is now submerged, so much so that loaded schooners and steamtugs make a straight course over it from the main stream to the village. Yesterday the current was at a standstill, to-day it has began to abate. The destruction of property, public as well as private, caused by this inundation is immense: bales of hay are seen drifting in all directions, which, like many thousands of bags of corn, are a total loss. Sutlers' goods, empty carts, casks, pine lumber, dead horses and oxen, are seen floating down the polluted tide in an agreeable confusion, producing to the eyesight a most pleasant scenic panorama, which, if one was not possessed of olfactory sensibility, would be highly amusing. The effluvium rising from the stagnant water covering the corn and other putrifying substances is perceptible from afar. At the mouth of the inlet leading to the village there was a large Brazilian depot of provender, a wharf, and two extensive galpons, not a vestige of which remains, all gone the road by which it came, but not on shipboard. Mr. Dufour has been a heavy loser: he had a large supply of good forage, which is a complete loss. All the proveedores (and many of the sutlers) have lost more or less property, except Mr. Lanuz, whose capacious pontoons and steamers afforded sufficient store room for his vast stock of commissariat stores. Those that were located on low ground (principally the scum of the shores of the Mediterranean), and driven away by the freshet, have taken up their quarters here, thus suddenly adding to the population an addition of 2,000 souls.

As if by magic, two hundred new shanties have been erected within the past two days at the water-side, forming a line of every species of bestiality of a mile in length, where villainous liquid compounds of all kinds are superabundant. Corrals are in course of erection, strange to say, made in many instances of American pine planks. Quite a number of the shanties are also built of pine, others of canvas or thatch. At the settlement (to their honor be it said) there are no Englishmen or North Americans. The only English heard here is spoken by a very limited number of longshore men, deserters, or those discharged from merchant vessels—fit subjects for the cholera. Since the rise of the river, which has put all thoughts of retreat out of the question, much activity is observable in completing the new works in course of formation in advance of the present lines of defence. Deep ditches, with high parapets, provided with ample artillery (recently arrived from Rio) and every requisite for defensive operations. Indeed, it is nigh time to be stirring. Resistance now per force is the only measure to ensure safety, when deprived of means of retreating and a daring enemy hanging on either flank of the base of operations, near enough to be within the report of a single musket fired at his outposts. Hence to the most advanced point of the allied lines the distance is ten leagues.

Those versed in the noble science of war will naturally question the propriety of penetrating thus far, without having in the first place annihilated the hordes of the enemy sheltered by jungles and bogs, from whence they are continually insulting, and making a hubbub in the rear, to the great annoyance of the allies.

During the week three thousand Brazilian contingents have arrived; as soon as landed they marched to Fuyuti. In the same interval several transport steamers have come in with tows, laden with coal, hay, maize, and horses; of provender there are fourteen cargoes afloat. The extreme heat prevails, on the 1st the thermometer at Comercio stood at 106 deg. in the shade.

The news from the river Paraguay is contradictory; one day it is reported the passage of Humaita has been forced, that the fortress has been silenced; still the everlasting artillery sounds come from the same spot where they did four months ago. The railway is said to be out of sight, under water a fathom below the surface; you must use your own judgment about believing these stories.

The panic caused here by the "run" on the Commercial bank of Corrientes was of short duration, its bills go at par, still gold is preferred. The bills of the branch at Santa Fé were also in circulation; no one will take the paper, except at a discount. By this time it is presumable that Cabal will have learnt a lesson of much utility to himself. It is well for some needy military aspirant "with no friend but his sword, no fortune but his talents" to dabble in revolutions. However a banker's honor should, like Cesar's wife, not even be suspected. The fame of a financier who takes part in intestine broils, cannot remain for an hour unsullied. The Presidential election continues to be the absorbing topic of the Argentine encampments. The voices of the soldiers are in favor of Sarmiento. For obvious reasons, it is hoped he may be the successful candidate. A prominent Argentine officer, well known for his literary attainments, and still better by his bravery in battle, is indefatigable in reminding his companions in arms, "the prætorian bands enervated and debauched as they were, had energy enough to keep the Roman populace in awe, but, when the distant legions took the alarm they marched to Rome and gave away the Empire."

Yours Gentlemen,
With respect,
SINBAD.

LATEST FROM VILLA MERCEDES.

Great sickness in the town and district. Average mortality—

Friday	20
Saturday	17
Sunday	11
Monday	18

None leave the town, as the accounts from the camp are worse.

LATEST FROM NAVARRO.

Sickness steadily on the increase, and intense alarm. News from the estancias could not be worse. Mortality about the same as Mercedes.

LATEST FROM SOUTH CAMPS.

The mortality in Chascomus is now attributed to stagnant water in laguna.

Along the coast of the Salado numerous deaths on the Espartillar: 14 taken sick. Mr. Reid cured 11. 3 dead.

Cañuelas—9 deaths at the 'cabaña.'

News from all quarters horrible in the extreme.

EDITOR'S TABLE.

Sunday was a hot, close day; the city was deserted, not a soul to be seen in the streets, and notwithstanding all the rumors about people returning from the camp, the entire population may be said to be still outside; all the little towns are crowded, and even the most distant estancias are thronged with visitors; the dullest place imaginable is the city on a Sunday or holiday at the hotels, the few strangers at present in town may be seen, but even the very churches are half empty. Saturday night the railways were crowded with excursionists who made a dash for the camp to visit their friends outside. We regret however to say that our advices from the camp are most unfavorable; on the road from the Lomas to San Vicente there has been much mortality—at one chacra six people died, all within 48 hours, and before medical aid could be obtained. The Doctors seem to concur that the epidemic has left the centre of the town, but on Sunday and Monday in the Western outskirts there was much sickness, few cases however proving fatal.

Monday being a strict holiday everyone who could kept out of town. The great Cricket-match at Palermo attracted a few to those shaddy fields, but the times are too much out of joint to enjoy even cricket. News arrived in town on Monday of the death of Mrs. E. de Parodi in San Isidro, a lady connected with the first families in this city. As regards Judge Cardenas it seems that he was very nervous, felt indisposed, sent to the station to telegraph for ice; the wires were not in working order, and before medical aid arrived he was too far gone. At South Barracas where the mortality has been severe, the decree of the Government suspending the saladeros was hailed with joy, but it seems that the majority of the most fatal cases have occurred in the immediate vicinity of the Cemetery; the health of that district is beginning to show signs of improvement.

The London steamer, City of Buenos Ayres, was posted to leave yesterday. She touches at Montevideo to deliver her mails, and then makes straight for London. Her commander engages to reach London in twenty-five days from date of sailing from Montevideo.

Yesterday the lawyers' vacation terminated, and to-day all the tribunals in the country should be open; but owing to the general state of things, and most, if not all, of the judges out of town, it is every way possible that the court will not be open for the despatch of business until the health of the city improves.

The coupons on the Provincial 4 and 6 per cent. bonds are payable from to-day to the 15th inst.; we believe, with the exception of one or two wealthy native capitalists, the Bank holds these securities.

The largest and most extensive estancia sale ever known in this country is advertised for the end of February by Messrs. Balbin and Plowes. The lands to be sold belong to the Rural Society, a company which may now be said to be extinct since the shares have been all bought up; and one individual is the sole owner. The territory owned by the Rural Society embraces a large district of nearly one hundred leagues of camp in the South close to the Laguna de los Padres. On many parts of the lands there have been, and, we believe, there is, stock. The land, for the most part, is represented as good; but the speculative owner has just brought it into the market at the wrong time. But a few years ago these lands would have sold for splendid prices, and bought up by sheep farmers and estancieros with avidity; to-day, the result of the auction will show the depressed state of the country interests. We watch the sale with attention, and shall advise our readers of the prices, &c., realized.

The newly-named Justice of the Peace for the district of Chacabuco has, we hear, sent in his resignation. Sr. Rodriguez is rather an old man to gallop ten leagues a day into the Juzgado. Better to be a shepherd on monthly wages than a justice of the peace under such circumstances.

The Isabel, another Brazilian transport, has arrived at Montevideo with troops for the army, and is now on her way up. Within the last ten days over 1,000 men have arrived for the army, and the cry is "Still they come!"

Sr Obligado, son of the ex-Governor, Dn. Pastor, has written and published a chapter on the present condition of the country, which is in imitation of the Lamentations of Jeremiah. He dates the document at midnight on the 31st December, and seems to write under the most gloomy epidemic inspiration. The paper, however, shows some talent: it pictures the whole country on the high road to destruction.

Our colleague, the *Nacion Argentina*, has at last proclaimed its candidates for the Presidency and Vice-Presidency, namely, Dr. Rufino Elizalde for President, Taboada Vice-President. The next thing to be done is for these gentlemen to publish their programme, so that the public can be free to form their own opinions as to their fitness. This is the honest, straightforward way to go about the business, and, possibly, the very best line of conduct for the candidates, in order to defeat the terrible opposition which is made them. Public men should stand more on their own merits than be bolstered up or cried down by political influences. And yet the system adopted in these countries at elections is so hostile to true Republican principles—the Governments invariably electing their own men, and the people completely shut out from the right of suffrage—that we entertain grave doubt as to the stability of institutions based on such corruption. We trust, therefore, that all candidates will adopt the English and American system, and come out boldly with their political programmes, instead of playing behind the scenes.

On Sunday the lady prioress, Sister Teresa, of the French Convent, close to the South Corrales, succumbed to the prevailing epidemic. Not only by the establishment which, by her able management had risen to such prosperity, but by the general public of Buenos Ayres, will her loss be deeply deplored. Gifted with the most elegant manners, and the highest conversational powers, she held, although secluded in the cloister, a very high position in the most elevated circles in Buenos Ayres. None who knew her can forget the elegance of her manners and the charms of her conversation. In the most fashionable drawing-rooms she would have proved an ornament, but within the humble precincts of the convent she was a bright star, that illumined all around. This saintly woman, during the prevalence of the epidemic, toiled and laboured as only a Sister of Charity can toil and labour. The magnificent school which she managed did not distract her from the duties imposed by her vows. Night and day this angel of mercy was to be found at the dying couch. The contemplation of her life is, indeed, a temptation to enthusiasm, not the miserable Exeter Hall enthusiasm, but an enthusiasm which springs from the heart, and tends to make us all better and wiser men.

The state of affairs at San Nicolas is represented to be alarming in the extreme. It would appear that Dr. Ruiz Moreno, who, besides being a lawyer, is a soldier, when he fled from Rosario, took up his post at San Nicolas, and, with the aid of the commandante of the partido, has got together some 600 men, whilst Captains Senabria and Gorordo, with orders from the Provincial Government of Buenos Ayres, have been actively engaged calling out the National Guards in the North, who are now marching towards the Arroyo del Medio.

Some 200 Mediterranean soldiers for the Argentine Republic arrived in port on Friday last. Supposing that each soldier costs the country $500 each (which is a very low estimate) this would make the present consignment cost $1,000,000—and yet people will ask what becomes of the public moneys and why such terrible taxation.

The price of poultry is at present monstrous, and yet dear as hens and chickens are in the market they are still dearer in the little country towns. The best paying cargo that came into this port for some time was a river schooner from Zarate and Baradero with a full cargo of cocks, hens, ducks, and turkeys—the cargo sold as soon as the schooner landed, and the speculative Italian boatman has gone up for another, which if it sells as well as the last will leave the Liguarian with sufficient funds to revisit Genoa.

The arrivals of horned cattle from the camp for the market and saladeros are enormous—the last sales for saladero at 170, but since the publication of the decree stopping the faenas, chasques have been despatched north, south, east, and west to caution the estancieros against sending any animals in except what will suit the butchers. The corrales are still in the same place, and have not yet been removed.

We have received a letter from our correspondent, "Scotia," dated Parana, 28th ult., giving a most satisfactory account of the working of a steam threshing mill, and some reaping-machines from the firm of Ransomes & Sons, lately arrived there. We will publish "Scotia's" interesting letter in our next number.

The New Year's Day number of the *Tribuna* was printed throughout with new type, all of which, as it informs its readers, came out of Mr. Bernheim's foundry. While alluding to this notable fact, the *Tribuna* pays a well-deserved compliment to Mr. Bernheim's perseverance, which has, in the face of almost insurmountable difficulties, endowed Buenos Ayres with an establishment that is so highly creditable to it. While on this subject, we would venture to call the attention of our worthy colleague to the fact that the type of the *Tribuna* is far too small for its size, and that there is great room for improvement in the quality of its paper.

We hear that Captain Bossi has placed on the stocks in Boston two new steamers destined for the River Plate, the Yi and the America.

We notice that, not only are the market stalls as full as ever of fruits, but that parties are allowed to hawk about in the streets this prolific element of disease. After all that has been said and writtten about the great danger of eating fruit under prevailing epidemic circumstances, we must say that it is a great shame that some stringent measure is not adopted by the proper authority to put a stop at once to the sale of this article.

A shocking accident occurred on Tuesday evening at the level crossing of the London and North-western Railway at Rainhill. Several vehicles were passing over the line, when a goods train dashed by, killing the signalman. William Johnson, and two horses, and inflicting dreadful injuries upon the driver of a waggonette, in which were seated Mr. Ackerley, auctioneer, of this town, and his two sisters. Mr. Ackerley was severely bruised, and his sisters were much shaken.

Yesterday, at two o'clock, we had a magnificent fall of rain. The torrents fell for nearly an hour, and the streets were washed clean. At three o'clock it cleared up again.

The mortality in town on Monday shows a decided improvement in the state of the city health, 36 deaths; but the news from the country is most alarming.

It was currently rumoured yesterday that special despatches for General Paunero were sent up at three o'clock, and that the National Government is determined to maintain the legitimate authorities, Sr. Oroño, in power.

LATEST FROM MONTEVIDEO.

Yesterday we received our files of papers from Montevideo brought by the Copernicus. The Comision de Salubridad, presided over by Don Juan M'Coll, is indefatigable in adopting all the precautionary measures that the well-founded fears of a cholera visitation suggested. Notwithstanding, there is now but little doubt that this dreaded visitor has already gained admittance into Montevideo, and we are sorry to say that, by latest accounts, our neigbours on the other side are almost as badly off as ourselves. It is to be hoped, however, that, thanks to the energetic precautions adopted in time, the cholera will not remain long in Montevideo. Gen. Battle, who had gone to rusticate on the banks of the Uruguay, has come back to Montevideo and resumed his old place at the War Office. Transports continue to arrive at Montevideo with recruits for the Brazilian army in Paraguay. There was a rumour current in Montevideo that Marquez de Caxias had asked for 5,000 additional troops, and threatened to resign unless they were sent out to him at once. It would appear that the Brazilian Minister of War has established a line of steamers between Rio and Itapiru, destined exclusively to the conveyance of despatches to and from the allied camps in Paraguay and Rio.

The "Siglo" publishes a complaint signed by more than fifty of the Annis's passengers by her last trip, and addressed to the Compagnié des Messageries Imperiales, against the overcrowding of the vessel, the want of proper attention to the comforts of the passengers, and the very faulty arrangements about luggage, &c., ending with expressing a hope that the company should—Firstly, admit only a number of passengers equal to the number of berths; secondly, provide proper lifeboat accommodation for the number of passsengers regulated on the number of berths; thirdly, give guarantee to the passengers that their luggage will be delivered to them at the port of destination; and, fourthly, make the Transatlantic steamers go as far as Montevideo.

In the same paper we read that our friend Mr. Marcoartu seems to have got into hot water with the directory of the Uruguay Central Railway—as we are not at all posted up in the merits of the case, we cannot venture to pronounce any opinion upon this apparently disagreeable incident.

The *Tribuna* of Montevideo has the following:—"It is rumored that Gen Asboth, the U. S. Minister, has addressed a note to the Argentine Government, renewing the offer of the U. S. mediation to bring to a termination the war in Paraguay." We think we can venture to say that this announcement is without foundation.

ARRIVAL OF STOCK FOR SANTA FE.

The Kepler has brought the following stock for Santa Fé:—

Mr. Surman, who has recently purchased an estancia, has imported an English stallion, Whirlwind—pedigree to morrow; also 1 short horn bull, 4 Leicester rams, 3 Leicester ewes.

Mr. Cookson, 10 Leicester rams, 4 ewes, and some splendid dogs.

The Castor is specially chartered to take them up ro Rosario.

LATEST FROM PAYSANDU.

AWFUL MORTALITY IN MERCEDES.

(PRIVATE LETTER).

The news we have from Mercedes is horrible. Maximo Perez, Jefe Politico, and almost all his policemen, are dead. Mortality in the town fearful. The town without any authorities; the sick without assistance; and corpses lying in the houses, none to inter them. Horrible state of things.

Great panic here (Paysandu), and increasing.

Lopez Jordan about to invade the Banda Orientai.

COPERNICUS'S MAILS.

LATEST FROM EUROPE.

London, December 5.

The House of Lords sat for a few minutes on Wednesday, and forwarded several bills a stage. The proceedings were quite formal.

Another small instalment of the Alabama correspondence has been issued. A proposition by Mr. Seward to refer to the opinion of a tribunal the policy of the British Government in recoguising the Southern Confederacy as a belligerent power was at once rejected by Lord Stanley, and no further progress seems to have been made in settling the question.

On Tuesday evening the streets of London were deprived of one of their chief characteristies—the long train of cabs which roll along in all directions. The edict of the Home Office compelling the proprietors of these vehicles to carry lamps was regarded as so obnoxious that a general strike was the result, nearly every cab being withdrawn from the stands. On Wednesday, however, the Home Secretary made a compromise with the proprietors of the vehicles, and the traffic, which is so essential to the public convenience, has been resumed.

The failure has been announced of Mr. John Baynes, cotton-spinner of Blackburn, owing to losses on large importations of cotton. The liabilities are understood to be about £77,300, of which 55,000 are unsecured, and the assets nominally show a surplus of £8,000. The failure has also been announced of Mr. Stephen Andrew, a spinner at Ashton-under-Lyne

The gales which have for the last few days been sweeping our coasts have occasioned great destruction of property and loss of life. We regret to hear that the Gorleston life boat "Rescue" upset by coming in contact with a lugger on entering the harbour at Yarmouth and that 26 persons, including part of a wrecked crew, were drowned, only four being saved. It is said that "the Rescue" is a salvage boat belonging to the beachmen at Gorleston, and that it is the same boat which capsized under similar circumstances two years ago, and with a like fatal result. Surely "life boat" is a misnomer for such a vessel.

Amongst the many thrilling incidents, narrow escapes, and sad catastrophes, with which the gale of Sunday night and subsequent day has filled the nothern papers, there is one reported by the *Daily Express* of Newcastle worthy of special notice. On Monday afternoon a small but powerful steam tug, the Pearl, which had been out in the Channel looking for vessels to assist, was observed to make for the Tyne. Again and again the breathless spectators on the shore thought she was lost, but breaker after breaker was weathered until just as she was rounding the end of the pier, a tremendous sea burst over her, and when she next came into view it was observed, to the astonishment of every one, that she was bottom uppermost. All hands were lost.

The territory of Russian America recently purchased by the Government of the United States from that of Russia was formally ceded on Oct. 8. This important political event took place at New Archangel, and the transfer was conducted with every circumstance of official ceremony which could add solemnity to the occasion. Captain Pestrechoff acted as commissioner on behalf of Russia; and, in accordance with the customary diplomatic usage on such occasions, Major-General Rosseau, an officer of superior military rank, represented the United States.

Serious bread riots took place in Belfast on Saturday evening, Dec. 2, owing to complaints of high prices. An organised mob smashed the windows of the bakers' shops, and took the loaves. The rioters were fired upon at one place, but persisted, and the rioting lasted three hours. Several arrests were made.

Sydney papers state that advices from Fiji report that the Rev. Mr. Baker, Wesleyan missionary, Novora, and a native catechist and his students, have been murdered by a tribe of caunibals.

A contract has been signed between the Portuguese Government and Mr. Rose, civil engineer, for a telegraph cable from Lisbon to Gibraltar.

Messrs. Alexander Collio and Co. send the following report from Manchester, "Our market is very dull. Producers are desirous of selling at a decline of ¼d per lb on yarns, and 3d per on lb. shirtings, but they meet with little response on the part of buyers. Lower prices of cotton in America and less favourable telegrams from the East lead purchasers to hope for still lower prices here."

INDIA.

THE CYCLONE IN BENGAL.

(REUTER'S TELEGRAMS.)

Calcutta, Nov. 9.

(*Via* Trieste.)

On the night of Friday, the 1st inst., a cyclone raged in Bengal, extending, according to present information, from the bay northward to Serajguni, westward to Midnapore and Burdwan, eastward to Burrisaul and Dacca.

The rice crops throughout the track visited by the cyclone are greatly injured. In many places it is estimated that not one-fourth will be saved. Many buildings have been destroyed, as also boats on the inland rivers laden with jute and grain. Large quantities of the growing jute have also been destroyed. Great damage has been done at Port Canning. A storm-ware, nearly six feet high, carried away a portion of the river bank jetties. The railway is much injured and the station destroyed. At Calcutta the cyclone lasted nearly eight hours. It is estimated that it has done more damage to the city than the great cyclone of October, 1864. In the city suburbs more than 1000 lives have been ascertained to have been lost, and 30,000 native huts destroyed. Tugs and other vessels have been wrecked at Saugor. Several vessels are missing, and numerous ships are returning disabled. More than 600 native boats have been destroyed. The steam transport Euphrates has put in at Calcutta to refit, greatly injured. At Burdwan much distress has been occasioned among the native population. The telegraph line along the Ganges has been thrown down. In Bengal great distress is reported.

The Bengal Government is actively engaged in taking measures for the relief of the sufferers; the board of revenue is co-operating with it. The famine relief committee are collecting funds.

The Lieutenant Governor has announced that the Government will double the amount of the subscriptions raised. The Chamber of Commerce has issued an appeal for subscriptions.

The Bengal Government has recommended to the Supreme Government that an agent of the Eastern Bengal Railway should be authorised to make an engineering survey, with a view to the extension of the railway from Assam to the Darjeeling. The Viceroy has submitted the question to the Home Government.

The Viceroy holds a council at Calcutta on the 21st. inst.

Advices from Orissa represent the famine there as nearly over. The stores of Government rice are sold at reduced prices.

A telegram from Burmah states that Colonel Lythe has returned to Manlay with the treaty signed.

ERUPTION OF MOUNT VESUVIUS.

The *Naples Observer* says—"The eruption of Mount Vesuvius continues, and may still be said to be on the increase. It is a truly magnificent sight from Naples, but its beauty is increased on a nearer approach. 'On Sunday night last,' says a report we have before us, 'the crater was quite full of fire and lava, and from five cones large showers of stones were thrown into the air. On the 19th the eruption had very much increased, and several streams of lava were flowing down the sides of the mountain in the direction of Ottaviano and St. Anastasia, while immense stones were hurled into the air. The cone has increased in size considerably; indeed, a blunt point some 60 or 70 feet high has been added to the summit.' We spent Wednesday night on the mountain, and the eruption appeared to be progressing rapidly. Large sheets of fire emerged from the mouth of the crater, and immense stones were hurled a tremendous height in the air, and even some distance down the mountain side. There were then seven streams of lava running in the direction of Ottaviano, but others have during the last 48 hours, been flowing down the Naples side of the mountain."

ANTICIPATED NEGRO OUTBREAK IN JAMAICA.

A telegram from Jamaica, dated November 15, which appeared in the *New York Herald*, says—"There is fear of another negro riotous and revolutionary outbreak. The parish of St. Thomas-in-the-East is threatened on the present occasion, as in the former rebellion. There are as many as 400 negroes disciplined according to military practice and ready to take up arms. The Protestant rector of St. David's parish has been already admonished by the leaders of the coloured force. A great panic exists all over the island in consequence. The Government and executive officers are on the alert. The white population is seriously menaced. Severe shocks of earthquake were experienced on the days of the 11th and 12th instant, about the hour of noon. The Morris estate has been damaged. A chimney fell from one of the dwellings with the force of the shock. There were no lives lost."

EARTHQUAKE IN THE WEST INDIES.

New York, Dec. 2.

According to telegrams from Havana to the 1st inst., received here by the Cuban cable and published in the New York papers, a severe shock of earthquake with volcanic eruptions occurred at St. Thomas and the adjacent islands on the 19th November, causing serious loss of life and much damage to shipping.

Dec. 3.

The Consul, ship, below Savannah, partially burnt

HEALTH OF THE POPE.

Unfavorable news as to the state of the Pope's health is confirmed by letters from Rome. It is said that during the last few days the sanitary condition of his Holiness has excited considerable anxiety, the energy and firmness which he displayed during the recent political events having been succeeded by a reaction which has occasioned great debility.

A report of the death of His Holiness the Pope was circulated in Paris a day or two since, and some of the journals actually announced the decease of the Holy Father; but an official contradiction has been given to the rumour.

ON 'CHANGE.

January 7, 1868.

Ounces	400
Sovereigns	122½
Patacons,	25
National Bonds	51½

There were no sales in Bonds to-day, and nothing in any line of business. The attendance on 'Change was even thinner than usual, owing to the weather and the numbers out of town. The news from Rosario was not generally known. Those best informed view with alarm the serious turn things have taken, and all seem to concur that the National Government troops under Paunero must support the legitimate authority. It would seem that Urquiza has at last pronounced in favor of Cabal, and is at present passing over troops at San Lorenzo. What the sequel will be few seem to know, but a terrible civil war seems impending.

Some merchants have received letters from Uruguay, stating that Lopez Jordan is about to invade the Banda Oriental.

The stoppage of the saladeros has at once shown its effects on the Exchange market: bills were passed to-day at 48½ and 48⅝, and the London and Liverpool steamers had engaged up to three o'clock about £100,000 sterling.

Respecting the almacenero affair spoken of last week, it appears that matters have been satisfactorily arranged.

Latest dates from Rio give sovereigns at 12$100 and 12$150, ounces 39.

In the wool plazas a few sales. In the South Plaza, at the station, same prices. Some good wool from Magdalena, Mr. James Spratt, at 70.

Advices from Montevideo, by private letters give a most gloomy picture; business at a complete standstill, and cholera as bad there as here.

500 ar. Magdalena wool, at 65, with bellies.

DEATHS.

On the 22nd of December, at the Pavon, Hon. John W. Dana, of Frysburg, Maine, United States, aged 58 years, formerly American Minister to Bolivia.

On the 6th January, Bridget, beloved wife of James Barrett. Deceased was a native of County Westmeath, and resident in this country many years.—R.I.P.

STEAMERS FOR LIVERPOOL, ANTWERP, LISBON, BRAZIL, AND RIVER PLATE.

Two of the following Screw Steamers are intended to be despatched with Cargo and Passengers each month, from Buenos Ayres for Rio Janeiro, Bahia, Lisbon, Liverpool, and Antwerp (calling at Montevideo):—

Kepler	1499 tons.	Thales	1153 tons.
Galileo	1525 "	Cassini	836 "
Newton	1074 "	Flamsteed	1393 "
Ptolemy	1115 "	Copernicus	1393 "
Halley	1347 "	Saladin	510 "
Humboldt	1346 "	La Place	1218 "
Memnon	1209 "	Donati	1218 "

SS. KEPLER, 1499 TONS REGISTER, CAPTAIN MARR.

The above Steamer will be despatched for Liverpool, via Montevideo, Rio de Janeiro, Bahia, and Lisbon, on

TUESDAY, 14TH JANUARY.

Cargo received on board until the evening of the 13th inst.

SS. COPERNICUS, 1848 TONS REGISTER CAPTAIN MARKWELL.

The above Steamer will be despatched for Antwerp, via Montevideo and Rio de Janeiro, landing Passengers and Specie at Cowes, on

WEDNESDAY, 15TH JANUARY.

Cargo received on board until the evening of the 14th inst.

Parcels and specie [on which freight must be prepaid] will be received at the agents' office up to Two o'Clock on day of sailing.

Rates of freight for specie per this steamer one-half per cent.

This Steamer has excellent accommodation for saloon and forward passengers. Apply to the consignees, Messrs. Darbyshire, Krabbé, & Co.; or to

JOHN P. BOYD & CO.,
31,xp,J8 56 Calle San Martin.

Pure, Genuine, Unadulterated,
From all Quarters of the Globe.

The most accomplished epicure will find his taste entirely satiated by this delightful beverage. It may be taken with equal efficacy by the Tectotaller as by the slaves of Bacchus.

To prevent the possibilty of running short in our supply of this most refreshing and invigorating draught, we have arranged that each steamer from Europe will bring us a consignment of Indian Coffees, viz., Whynan, Wisor, Moka, Borbon, and Martinica, as likewise the Carasollilo of the Antillas.

STEAM COFFEE ROASTER.

This new and most ingenious apparatus, for the preparation of Coffee, may be seen in full operation at our Establishment, where similar ones are on sale.

No expense has been spared to render this Establishment the first in South America. Five Medals were Awarded at the London and Paris International Exhibitions for Coffees Toasted by this New Machine.

SARATOGA SPRING "A" WATER.

The Saratoga "A" Spring Water is probably the most effective Mineral Water found on either Continent. It will be observed that it has ten per cent. greater mineral properties than the celebrated Congress Spring; four times that of Baden Baden of Austria; five times that of Aix la Chapelle in Prussia; twice that of Vichy in France; nearly three times greater than the renowned Seltzer of Germany; and equally over the Spas of Bath, England, and Kissengen in Bavaria.

ANALYSIS OF THE SARATOGA "A" SPRING WATER, BY JULIUS G. POHLE, M.D.
SURVIVING PARTNER OF JAMES R. CHILTON & POHLE.

Chloride of Sodium	365.300	Sulphate of Potassa	.370
Chloride of Potassium	.357	Silicic Acid	1.460
Chloride of Calcium and Magnesia	traces.	Alumina	.380
Bi-carbonate of Soda	6.752		
Bi-carbonate of Lime	56.852	Per gallon, grains	656 911/1000
Bi-carbonate of Magnesia	20.430		
Bi-carbonate of Iron	1.724	Free Carbonic Acid Gas	212 cubic inches.
Sulphate of Lime	.448	Atmospheric Air	4 "
Sulphate of Magnesia	.288		
Sulphate of Soda	2.500	Per gallon	.216

The value of Mineral Waters has been prized and acknowledged by Medical Men since the earliest civilisation. A celebrated authority says:—"The virtues of Mineral Waters have been best shewn in the treatment of obscure and chronic diseases. In many instances persons have been restored to health, or greatly relieved by Mineral Waters, where other remedies have failed. The reason no doubt is, that such waters must contain compounds not yet known to Chemistry or Pharmacy."

USES.

The reputation of this Water is based upon its effects in Diseases of the Stomach, Liver, Bowels, Kidneys, and Spleen, and acts with wonderful benefit in cases of Chronic Dyspepsia, Constipation, Gravel, Gout, Scrofula, Cutaneous Affections, General Lethargy, Soreness, and Prostration of the System.

ADVERTISEMENT.

The undersigned, consignees of produce, fearing that in view of the unfavorable news brought by the last packet, in regard to the prices of produce, and in consequence of the paralysation of trade produced by the unhealthy state of the city, which has occasioned the temporary absence of the greater part of the dealers, they deem it their duty to recommend their constituents to abstain from making remittances of produce until affairs return to their normal condition, believing that in so doing they best cousult the interests of their friends by saving them as far as possible from the losses likely to be incurred in the existing state of business.

Buenos Ayres, Dec. 16, 1867.

DR. RUBINI'S
CELEBRATED
CONCENTRATED
ALCOHOLIC CAMPHORATED DROPS.

According to the experience of this distinguished and humane Physician, nothing yet discovered or invented surpasses Concentrated Camphorated Alcoholic Drops, in cases of Cholera or Analogous Diseases.

When the Cholera was raging in South Italy, and whole villages were swept away by its ravages, when the people fled with panic terrors to the woods and mountains, and science was of no avail, Dr. Rubini, fortunately for mankind, hit upon this great discovery, and according to the testimonies of the Governor of Naples, General Ricci, and others equally trustworthy, cured six hundred cases by the plain simple remedy here advertised.

The preventive mode of treatment is the following:—Take Morning and Evening 5 Drops, in a lump of sugar—this will prevent it precipitating and losing its special virtues. Tea, Coffee, and other excitable beverages should be avoided.

On Sale at CRANWELL'S,
155,1m,d18 30 Rivadavia.

CHOLERA, DIARRHŒA, RHEUMATISM, FEVER, CONSUMPTION, COUGH, ASTHMA, CRAMP AGUE, DYSENTERY, &c.
DR. J. COLLIS BROWNE'S CHLORODYNE
IS THE
ORIGINAL AND ONLY GENUINE.

This invaluable Remedy produces quiet refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and Young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively, using it in great quantities in the following diseases:—Consumption, Asthma, Bronchitis, Whooping Cough, Newralgia, Diarrhœa, Rheumatism, Spasms, &c. Important testimonials from numerous medical men accompany each bottle.

CAUTION.—Always ask for "Dr. J. Collis Browne's Chlorodyne," and see that his name is on the Government stamp. Sold in Bottles at 1/1½, 2/9, and 4/6, by all Chemists.

33 GREAT RUSSELL STREET,
BLOOMSBURY SQUARE, LONDON.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See 'Lancet,' Dec. 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from 'Medical Times,' Jan. 12, 1866—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a place.'"

SAVINGS BANK.

BANK MAUA AND CO.

101--Cangallo--103.

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artizans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.
M. A. DE FREITAS AMORIM.

RIVER PLATE STEAM-SHIP COMPANY.
LIVERPOOL AND RIVER PLATE DIRECT.

NAMES OF STEAMERS:—
MENDOZA (new).
LA PLATA (new). CORDOVA
URUGUAY, ADA,

One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 10th of each month.

Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.

As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.

Specie and Parcels will be received until the day before the steamers leave.

In order to facilitate immigration to these countries the rates have been reduced as follows—

1st Class.....£35.
2nd „ .....£25.
3rd „ .....£16.

Return Tickets will be issued for six months at the following rates—

1st Class.....£65.
2nd „ .....£45.
3rd „ .....£30.

These boats are excellent opportunities for families visiting Europe, more especially when consisting of Ladies and Children, having large ladies' cabin, and carrying an experienced stewardess.

The ss. CORDOVA, CAPTAIN COUCHE, will leave this Port for Liverpool, on Saturday, 4th January.

H. A. GREEN & CO., 85 RECONQUISTA.

NEW LINE
OF
STEAMERS FROM LONDON
TO
RIO JANEIRO, MONTEVIDEO, AND BUENOS AYRES.

NAMES OF STEAMERS:—
CITY OF LIMERICK, CITY OF RIO JANEIRO,
CITY OF LONDON, CITY OF MONTEVIDEO,
CITY OF BUENOS AYRES.

AGENTS:—
LONDON .....—Managing Owners, Messrs. Tait & Co. .....—Brokers A. Howden & Co.
RIO JANEIRO..—Consignees Messrs. Machado & Wilmot .....—Broker F. D. Machado.
MONTEVIDEO..—Consignees Messrs. Zimmermann, Fair, & Co.—Broker J. R. Schwartz.
BUENOS AYRES—Consignees Messrs. Zimmermann, Fair, & Co.—Brokers Woodgate Bros.

One of the above Steamers will be despatched from London every month, for Rio Janeiro, Montevideo, and Buenos Ayres.

Cargo will be received on board, 48 hours after arrival at this port, for London or Continent, at through rates.

Passage-money to London, £35; to Rio Janeiro, $50 Pats. Freight on Specie one-half per cent., payable here.

The Steamer CITY OF BUENOS AYRES will be despatched for London, receiving Cargo for Antwerp, Havre, &c., at through rates, on TUESDAY, 7th JANUARY, 1868.

Specie and Parcels will be received at the office of the undersigned until 3 p.m. on Tuesday, 7th Jan., and the Postmaster-General has been notified that the Mail-bag will be claimed at the Captain of the Ports at the same hour.

For further particulars apply to the Consignees, Messrs. Zimmermann, Fair, & Co., or to
WOODGATE BROTHERS,
110.xp,o15 42 Calle San Martin.

IMPERIAL PETROLEUM,
IN PATENT TIN CANS.
BRILLIANCY, ECONOMY, SAFETY!

The undersigned beg to inform the public that they have received direct from the proprietors, Messrs. LANMAN & KEMP, NEW YORK, a shipment of the above celebrated Petroleum Oil which has established for itself a reputation for excellence surpassing all others petroleums. The following are some of the qualities possessed by it—

1st. By a great improvement in refining it is freed from the gaseous Napta and will therefore stand a higher degree of heat than other petroleums before igniting, thus making it much safer, in fact, almost,

NON-EXPLOSIVE

2d. It is pure white in color, has scarcely any smell and is clean and pleasant to handle.
3d. It has a much greater density or heaviness of body than ordinary petroleum, a large part of which latter passes off in gas, the Imperial Petroleum being pure oil will therefore, with rare exception,

BURN 25 PER CENT. LONGER

than other petroleums.
4th. The flame from the Imperial Petroleum is a pure white, while nearly all other petroleums give a yellow opaque flame, on this account, two lamps burning the Imperial Petroleum will give as much light as THREE lamps burning ordinary petroleum.
5th. It burns clear and steady without flickering, which is a great relief and saving to the eyesight.
6th. It does not crust the wick and therefore requires trimming but seldom.
7th. The Imperial Petroleum is shipped in patent tin cans, not liable to leak, thus avoiding the loss so often entailed upon the buyer, and being from one vein of oil it is always uniform in color and qualities.

We respectfully ask the attention of families, storekeepers, and those who have in charge the lighting of Schools, Churches, Public Halls, and Street Lamps to this very superior oil, which from its SAFETY, ECONOMY and BRILLIANCY, they will find admirably suited for their various purposes.
